Basic Information

- Place of Origin: China
- Brand Name: Bythai
- Model Number: BT04

Product Specification

- Easy Dismantling: Yes
- Size: Customized
- Load Capacity: High
- Cost-effectiveness: Yes
- Safety: High
- Weight: Lightweight
- Surface Treatment: Powder Coating
- Material: Steel

Product Description

Product Description:

Frame System Scaffolding is a lightweight and highly durable American Frame h scaffold system that offers users maximum flexibility. It is designed to be easy to install and is available in both steel and painted color options. With its high durability and lightweight construction, the Frame System Scaffolding is perfect for a variety of applications. It is ideal for commercial and residential construction projects, including roofing projects, painting jobs, and more. The system also offers increased safety features, such as adjustable height, non-slip feet, and secure locking mechanisms. Thanks to its easy installation and flexible design, Frame System Scaffolding is a great choice for any project.

Features:

Product Name: Frame System Scaffolding
Durability: High
Safety: High
Reusability: Yes
Material: Steel
Easy Dismantling: Yes
Keywords: H frame, Frame Scaffolding System

Technical Parameters:

Features	Description
Surface Treatment	Powder Coating
Weight	Lightweight
Durability	High
Cost-effectiveness	Yes
Safety	High
