

Hot Dip Galvanized Scaffolding Steel Tube Q195 Scaffolding Tubes And Pipes

Our Product Introduction

Basic Information

- Place of Origin: china
- Brand Name: bythai
- Minimum Order Quantity: 1000
- Price: 4.5-8.5
- Packaging Details: container
- Delivery Time: 15-25
- Payment Terms: L/C

Product Specification

- Surface: Galvanised
- Material: Galvanised Steel
- Standard: EN39
- Highlight: **Galvanized Scaffolding Steel Tube, Q195 Scaffolding Tubes, Hot Dip Galvanized Scaffolding Tube**

Product Description

hot dip galvanized scaffolding steel tube q195 scaffolding tubes and pipes

Name	Size(mm)	Weight(kg)	Surface	Material	Standard
scaffolding tube	48.3*3.2*6000	21.35	HDG	Q235/Q355B	BS1139/EN39
scaffolding tube	48.3*4.0*6000	26.22	HDG	Q235/Q355B	BS1139/EN39
scaffolding tube	48.6*2.4*6000	16.41	HDG/P-G	STK400/STK500	JIS

The surface is galvanized and has excellent corrosion resistance, which can effectively resist the erosion of the pipe by the atmosphere, water and other environments, thereby extending the service life. Secondly, galvanized pipes have high strength and can withstand large loads, ensuring the stability and safety of the scaffolding structure. In addition, galvanized pipes have good processing properties, are easy to cut and weld, facilitate construction and installation, and improve work efficiency. When used on the construction site, galvanized pipes do not require additional protective measures, simplifying maintenance work.

Our company is a professional scaffolding service provider that provides customers with a full range of high-quality solutions with its excellent design and manufacturing capabilities. We have advanced production equipment and technical teams that can quickly respond to customer needs and provide customized products. A strict quality control system ensures that our scaffolding meets international standards and ensures construction safety. We focus on close cooperation with customers and provide professional pre-sales consultation and after-sales services to ensure the smooth progress of the project. Flexible supply chain management and efficient logistics system enable us to deliver products in a timely manner.
