- Packaging: Container
- Place Of Shipment: China
- Length: Customized
- Highlight: **Customized Length Scaffolding Plank,
Pre Galvanized Scaffolding Plank,
Industrial Scaffold Steel Plank**

Product Description

Customized Length Scaffolding Plank With Pre-Galvanized Surface For Industrial

Product Description:

Scaffolding Plank: Steel Plank for Support Construction

Scaffolding plank is an essential component for construction safety. It is widely used to provide support for scaffolding, decking, and working platforms. It is made of high-quality steel, and its surface can be pre-galvanized, hot dip galvanized, or spray plastic. The length of the plank is customizable according to the customer's requirement. All the products are shipped from China and packaged in containers.

Scaffolding plank is a reliable and economical solution for construction. It is durable and easy to install. With the help of this scaffolding plank, workers can safely and quickly complete the construction projects. It is also widely used in many other industries such as mechanical engineering, shipbuilding, and chemical industry.

The scaffolding plank is designed to meet the highest safety standards and it is certified to comply with national and international regulations, providing complete safety for construction workers. By choosing our scaffolding plank, you can be sure that your construction projects will be completed in the safest and most efficient way possible.

Features:

Product Name: Scaffolding Plank

Packaging: Container

Length: Customized

Place of shipment: China

Usage: Scaffolding

Surface: Pre-galvanized/hot Dip Galvanized/Spray Plastic

Special features: Steel plank for support construction, steel frame for decking plank, steel plank without hook

Technical Parameters:

Parameter	Value
Usage	Scaffolding
Place of shipment	China
Material	Steel
Packaging	Container
Length	Customized
Surface	Pre-galvanized/hot Dip Galvanized/Spray Plastic
Features	Scaffolding board, galvanized steel scaffolding plank, pierced steel planking

Applications:
