

## Hot Dip Galvanized Steel Plank Scaffold for Secure Working Platform

### Our Product Introduction

for more products please visit us on [bythaiscaffold.com](http://bythaiscaffold.com)

#### Basic Information

- Place of Origin: China
- Brand Name: Bythai
- Model Number: BM205
- Minimum Order Quantity: 1000
- Price: 4.5-8.5
- Packaging Details: In bundles
- Delivery Time: 10-15
- Payment Terms: container, shipping

#### Product Specification

- Material: Steel
- Place Of Shipment: China
- Usage: Scaffolding
- Packaging: Container
- Surface: Pre-galvanized/hot Dip Galvanized/Spray Plastic
- Length: Customized
- Highlight: **Hot Galvanized Steel Plank Scaffold, Working Platform Steel Plank Scaffold, Working Platform Scaffolding Plank**

## Product Description

### Product Description:

#### Scaffolding Plank - An Essential for Every Construction Project

Scaffolding plank, also known as steel plank scaffold, is a crucial component in any construction project. It is a type of platform used to provide support and access for workers and materials during building, maintenance, and repair work. Made from high-quality steel, this product is strong, durable, and reliable, making it an essential tool for any construction project.

#### Customized Length for Optimal Flexibility

One of the key features of scaffolding plank is its customized length. This allows for optimal flexibility in terms of usage and application. Whether you need a longer plank for wider structures or a shorter one for smaller projects, the length of the scaffold plank can be tailored to meet your specific needs.

#### Designed for Scaffolding Usage

Scaffolding plank is specifically designed for scaffolding usage, making it the perfect choice for construction projects. The plank is durable enough to withstand heavy loads and provides a safe and stable platform for workers to perform their tasks. It is also easy to assemble and disassemble, making it a convenient and efficient choice for any construction site.

#### Made from High-Quality Steel

Scaffolding plank is made from high-quality steel, ensuring its strength and durability. The use of steel also makes it resistant to rust and corrosion, making it suitable for both indoor and outdoor use. This makes the scaffold plank a long-lasting investment that can be used for multiple projects.

#### Various Surface Options Available

To meet the different needs and preferences of customers, scaffolding plank is available in various surface options, including pre-galvanized, hot dip galvanized, and spray plastic. Pre-galvanized planks are coated with a layer of zinc to prevent rusting, while hot dip galvanized planks undergo a more extensive galvanization process for added protection. Spray plastic planks, on the other hand, have a plastic coating for a more aesthetically pleasing finish. Customers can choose the surface option that best suits their project requirements.

#### Convenient Packaging for Easy Transportation

Scaffolding plank is typically packaged in containers for easy transportation and storage. This makes it convenient for construction companies to transport the planks to different project sites without any hassle. The packaging also ensures the safety and protection of the planks during transit, preventing any damage or loss.

In conclusion, scaffolding plank is an essential product for any construction project. Its customizable length, suitability for scaffolding usage, high-quality steel material, various surface options, and convenient packaging make it a versatile and reliable choice for construction companies. So if you're planning a construction project, make sure to include scaffolding plank in your list of essential tools.

### **Applications:**

Scaffolding Plank - Bythai

Brand Name: Bythai

Model Number: BM205

Place of Origin: China

Minimum Order Quantity: 1000

Price: 4.5-8.5

Packaging Details: In bundles

Delivery Time: 10-15

Payment Terms: container, shipping

Length: Customized

Usage: Scaffolding

Surface: Pre-galvanized/hot Dip Galvanized/Spray Plastic

Packaging: Container

Material: Steel

Scaffolding Plank, also known as steel walking planks, is an essential product in the construction industry. It is designed to provide a safe and sturdy platform for workers to walk on during building, maintenance, or repair projects. Bythai is a leading brand in manufacturing high-quality scaffolding planks that meet international standards and are widely used in various construction projects around the world.

Application and Scene

The Bythai Scaffolding Plank, model BM205, is commonly used in the construction of high-rise buildings, bridges, and other structures where workers need to access difficult-to-reach areas. It is also suitable for industrial maintenance, shipbuilding, and civil engineering projects. The steel planks with hooks can be easily attached to the scaffolding frames, providing a safe and stable working platform for workers.

Product Features

**Durable Material:** Made of high-quality steel, the scaffolding planks are strong and can withstand heavy loads, making them suitable for various construction projects.

**Customizable Length:** The planks are available in various lengths to suit different needs. Customizations can also be made to meet specific project requirements.

**Galvanized Surface:** The planks are pre-galvanized or hot dip galvanized to prevent rust and corrosion, ensuring long-lasting use.

**Easy to Install:** The steel planks with hooks can be quickly and easily attached to the scaffolding frames, saving time and effort for workers.

**Safe and Stable:** The planks have a non-slip surface and are designed to provide a stable and secure working platform for workers.

Packaging and Delivery

The Bythai Scaffolding Plank is packaged in bundles and can be delivered in containers. This makes it easy to transport and store, ensuring that the planks are in good condition when they reach the construction site. The delivery time is usually 10-15 days after the order is placed, depending on the quantity.

Minimum Order Quantity and Price

The minimum order quantity for Bythai Scaffolding Planks is 1000 pieces. The price range is between 4.5-8.5 USD per piece, depending on the quantity and customizations required.

Payment Terms

The payment terms for Bythai Scaffolding Planks are container and shipping. This means that the customer can choose to pay for the planks in full before shipment or pay a certain percentage before shipment and the remaining amount upon delivery.

In conclusion, the Bythai Scaffolding Plank, model BM205, is a top-quality product that provides a safe and sturdy platform for workers in various construction projects. Its durable material, customizable length, galvanized surface, and easy installation make it a preferred choice for construction companies worldwide. Contact Bythai now to place your order and ensure a safe and efficient construction process.

## Customization:

Scaffolding Plank Customization Service

Brand Name: Bythai

Model Number: BM205

Place of Origin: China

Minimum Order Quantity: 1000

Price: 4.5-8.5

Packaging Details: In bundles

Delivery Time: 10-15

Payment Terms: container, shipping

Packaging: Container

Length: Customized

Material: Steel

Surface: Pre-galvanized/hot Dip Galvanized/Spray Plastic

Usage: Scaffolding

Key Features:

High-quality steel plank with hook for improved safety

Compliant with BS1139 standard for scaffolding

Customized length to fit specific project needs

Durable material for long-lasting use

Various surface options to meet different environmental conditions

Efficient packaging in bundles for easy transportation and storage

Flexible payment options including container and shipping

Quick delivery within 10-15 days

Enhance your scaffolding project with Bythai's BM205 steel staging plank. Designed to meet the highest safety standards, our steel plank with hook provides a secure working platform for your workers. Made with high-quality steel, it is strong and durable, ensuring long-lasting use. Our scaffolding plank is also compliant with BS1139 standard, guaranteeing its reliability and safety.

At Bythai, we understand that every project is unique and may require specific length measurements. That's why our scaffolding plank can be customized to fit your exact project needs. With various surface options such as pre-galvanized, hot dip galvanized, and spray plastic, our steel plank can withstand different environmental conditions and provide maximum protection against corrosion.

For your convenience, our scaffolding plank is efficiently packaged in bundles for easy transportation and storage. We also offer flexible

payment terms including container and shipping, making it easier for you to complete your project. With our fast delivery within 10-15 days, you can start using our high-quality steel staging plank in no time. Choose Bythai's BM205 scaffolding plank for your next project and experience the best in quality, safety, and customization. Contact us now to place your order.

## Packing and Shipping:

### Packaging and Shipping for Scaffolding Plank

#### Packaging

The Scaffolding Plank will be packaged in strong and durable boxes to ensure safe transportation. Each box will contain a set of 10 planks, securely stacked and wrapped in protective materials to prevent any damage during transit. The boxes will also be clearly labeled with product information, including the dimensions and weight of the planks.

#### Shipping

The Scaffolding Plank will be shipped via a reliable and reputable shipping company to ensure timely delivery and safe handling.

Customers can choose from various shipping options based on their location and urgency of delivery. Our team will carefully pack and load the planks onto the shipping containers, ensuring that they are securely fastened to prevent any movement during transit. We also offer international shipping for our customers outside of the country.

For bulk orders, we can arrange for direct delivery to construction sites or warehouses, with the option of using pallets or wooden crates for easier handling and storage. Our team will work closely with customers to determine the best shipping method and provide assistance with any necessary customs documentation.

We take great care in packaging and shipping our Scaffolding Plank to ensure that it arrives at its destination in perfect condition.

However, in the rare event of any damage during transit, please contact us immediately and we will work to resolve the issue as quickly as possible.

## FAQ:

### Q: What is the brand name of this product?

A: The brand name of this product is Bythai.

### Q: What is the model number of this product?

A: The model number of this product is BM205.

### Q: Where is this product manufactured?

A: This product is manufactured in China.

### Q: What is the minimum order quantity for this product?

A: The minimum order quantity for this product is 1000 pieces.

### Q: What is the price range for this product?

A: The price range for this product is 4.5-8.5 USD per piece.

### Q: How is this product packaged?

A: This product is packaged in bundles.

### Q: What is the estimated delivery time for this product?

A: The estimated delivery time for this product is 10-15 days.

### Q: What are the accepted payment terms for this product?

A: The accepted payment terms for this product are container and shipping.
