Basic Information

- Place of Origin: China
- Brand Name: Bythai
- Certification: SGS
- Model Number: BM202
- Price: 4.5-8.5
- Packaging Details: In bundles
- Delivery Time: 10-15
- Payment Terms: TT/TC

Product Specification

- Material: Q235 Steel
- Application Scenarios: Architecture
- Warranty: 2 Years
- Surface Treatment: Hot-dip Galvanized
- Product Name: Ringlock System
- Shipping Origin: China
- Highlight: **Ringlock System Scaffolding Mechanism,
Ringlock System Scaffolding Connector,
Q235 Ringlock Scaffold Connector**

Ring Lock Scaffolding Mechanism Ringlock Scaffold Connector Scaffold Ringlock

Product Description:

Product Overview: Ringlock System Scaffolding

The Ringlock System Scaffolding is a high-quality scaffold connector, made from durable Q235 steel. It is a versatile and efficient scaffolding system, perfect for use in architecture projects. The system is designed to provide a safe and easy assembly process, making it a popular choice among construction professionals.

Warranty

The Ringlock System Scaffolding comes with a 2-year warranty, ensuring that customers are fully satisfied with their purchase. This warranty reflects our commitment to providing a high-quality and long-lasting product.

Surface Treatment

All components of the Ringlock System Scaffolding are hot-dip galvanized, providing a durable and corrosion-resistant surface. This treatment ensures that the scaffolding system can withstand harsh weather conditions and maintain its strength and quality over time.

Application Scenarios

The Ringlock System Scaffolding is suitable for a wide range of architecture projects, including building construction, renovation, and maintenance. It can also be used for industrial and commercial projects, making it a versatile choice for various applications.

Material

The Ringlock System Scaffolding is made from Q235 steel, a high-strength material known for its durability and load-bearing capabilities. This ensures that the scaffolding system can support heavy loads and withstand the demands of construction projects.

Shipping Origin

The Ringlock System Scaffolding is manufactured in China, a country known for its quality and efficiency in producing construction materials. This allows us to offer our customers a cost-effective and reliable product.

Key Features

Quality Scaffold Connector

Versatile Ringlock Scaffold

Layher Scaffolding

High-Strength

Easy Assembly

Durable

Safe

Efficient

The Ringlock System Scaffolding stands out for its high-quality scaffold connector, providing a stable and secure structure for construction projects. The versatile ringlock scaffold design allows for flexibility in various applications, while the use of Layher scaffolding technology ensures easy assembly and disassembly. With its high-strength material and durable surface treatment, the Ringlock System Scaffolding guarantees safety and efficiency on the job site.

Overall, the Ringlock System Scaffolding is a reliable and cost-effective choice for construction professionals, providing a durable and efficient solution for various architecture projects. With a 2-year warranty and quality features, this scaffolding system is a valuable addition to any construction project.

Technical Parameters:

Product Name	Ringlock System
Material	Q235 Steel
Surface Treatment	Hot-dip Galvanized
Warranty	2 Years
Application Scenarios	Architecture
Shipping Origin	China
Features	Strong and durable steel material Hot-dip galvanized surface treatment for rust protection Easy and quick assembly with ringlock rosette design Support diagonal ringlock for stability and strength 2 years warranty for quality assurance Perfect for architecture projects Supplied by reliable ringlock scaffold supplier

Applications:

Bythai Ringlock System Scaffolding - The Ultimate Solution for Architecture

Brand Name: Bythai
Model Number: BM202
Place of Origin: China
Certification: SGS
Price: 4.5-8.5
Packaging Details: In bundles
Delivery Time: 10-15
Payment Terms: TT/TC
Warranty: 2 Years
Material: Q235 Steel
Product Description:

The Bythai Ringlock System Scaffolding is a revolutionary product that is changing the game in the construction industry. With its advanced ringlock technology, this versatile scaffold is the perfect solution for all types of architecture projects. The ringlock rosette, made with high-quality steel, is the key component of this system. It allows for easy assembly and provides a stable structure that is safe and reliable. This makes it a popular choice among construction companies and contractors. Not only is the Bythai Ringlock System Scaffolding durable and able to withstand heavy loads, but it is also widely used in various construction projects. From tall skyscrapers to small buildings, this system is suitable for any type of structure, making it a truly versatile

product.

Application Scenarios:

The Bythai Ringlock System Scaffolding is perfect for all types of architecture projects, including:

High-rise buildings

Bridges

Towers

Industrial structures

Residential buildings

And much more!

No matter the size or complexity of the project, this scaffolding system can handle it all.

Why Choose Bythai Ringlock System Scaffolding?

There are many reasons why the Bythai Ringlock System Scaffolding stands out from other scaffolding systems:

Cost-Effective: With its easy assembly and versatile design, this system can save you time and labor costs, making it a cost-effective solution for any construction project.

Durable: Made with high-quality Q235 steel, this system is built to last and can withstand heavy loads and harsh weather conditions.

Time-Saving: The Bythai Ringlock System Scaffolding can be assembled quickly and easily, saving you valuable time on your construction projects.

Labor-Saving: The advanced ringlock technology and stable structure of this system require less labor for assembly, reducing the number of workers needed on the job site.

Overall, the Bythai Ringlock System Scaffolding offers a safe, reliable, and efficient solution for all your construction needs.

Customization:

Bythai Ringlock System Scaffolding Customized Service

Brand Name: Bythai

Model Number: BM202

Place of Origin: China

Certification: SGS

Price: 4.5-8.5

Packaging Details: In bundles

Delivery Time: 10-15

Payment Terms: TT/TC

Surface Treatment: Hot-dip Galvanized

Product Name: Ringlock System

Application Scenarios: Architecture

Warranty: 2 Years

Material: Q235 Steel

At Bythai, we understand that every project is unique and requires customized solutions to meet specific needs. That's why we offer a comprehensive Ringlock System Scaffolding Customized Service to provide our clients with the best possible scaffold coupler system that complies with the highest scaffolding standards.

As a leading ringlock scaffold supplier, we pride ourselves on using only high-quality materials, such as Q235 steel, to ensure the safety and durability of our products. Our customized service allows our clients to choose the exact specifications they need for their project, including the surface treatment, packaging, and delivery time.

Our ringlock system is suitable for a variety of application scenarios, particularly in the field of architecture. With our 2-year warranty, you can trust in the reliability and longevity of our products. Trust Bythai for all your customized scaffold coupler system needs.

Packing and Shipping:

Ringlock System Scaffolding Packaging and Shipping

Packaging:

The Ringlock System Scaffolding is packaged in sturdy wooden crates to ensure safe transportation and storage. Each crate is carefully designed to protect the components from any damage during shipping.

Shipping:

We offer various shipping options for our customers, including sea, air, and land transportation. Our experienced logistics team will ensure that your order is delivered to you in a timely and efficient manner.

For international shipping, we will handle all the necessary documentation and customs clearance to ensure a smooth delivery process.

We also offer door-to-door delivery service for your convenience.

Our products are carefully packed and loaded onto the shipping containers to prevent any damage during transit. We also provide insurance for all our shipments to give our customers peace of mind.

With our efficient packaging and shipping process, you can be confident that your Ringlock System Scaffolding will arrive at your project site in perfect condition.
