Product Description

Silver Scaffolding Step Ladders With 150kg Load Capacity Safety Step Ladder

Product Description:

Scaffolding Ladders: The Perfect Solution for Safe and Efficient Construction Work

Introducing Scaffolding Ladders, the ultimate solution for all your construction needs. These ladders are designed to provide a safe and efficient way to access elevated work areas, making them an essential tool for any construction project. With a size of 3m and a step width of 50cm, these ladders are perfect for reaching heights and navigating tight spaces. Available in a sleek and professional silver color, these ladders are not only functional but also aesthetically pleasing.
Unmatched Durability and Strength

At Scaffolding Ladders, we understand the importance of durability and strength when it comes to construction equipment. That's why our ladders are made with the highest quality materials. The ladder without hook is made from sturdy aluminum, while the ladder with hook is made from hot-dip galvanized (HDG) steel. Both materials are known for their exceptional strength and durability, making our ladders suitable for heavy-duty use in the construction industry.
Safe and Easy to Use

Safety is our top priority at Scaffolding Ladders. That's why all our ladders come with non-slip steps and a stable base, ensuring maximum stability and safety for the user. The ladder with hook also features a hook on the top for added stability and security when working at higher levels. The step width of 50cm also allows for a comfortable and secure grip, making it easy to climb up and down the ladder.
Versatile and Multi-functional

Our scaffolding ladders are not just limited to construction work. They can also be used for a variety of tasks in different industries. Whether you're in the industrial sector, maintenance and repair, or even for domestic use, these ladders are versatile enough to meet all your needs. The HDG surface treatment also makes them resistant to corrosion and rust, ensuring long-lasting use in any environment.
Convenient and Portable Design

Features:

Product Features:

Ladder without hook design for easy assembly and disassembly

Silver color for a sleek and professional look

Step height of 30cm for comfortable climbing

Step width of 50cm for stability and balance

Made of high-quality aluminum or hot-dip galvanized (HDG) steel for durability and strength

Material:	Aluminum/HDG (Hot Dip Galvanized)

Applications:

Scaffolding Ladders - A Must-have for Construction and Maintenance Work

Welcome to bythai, the leading manufacturer of high-quality scaffolding ladders in China. Our brand is known for its reliability, durability, and safety in the construction and maintenance industry. Our model number BM224 has been designed to meet the demands of various industrial applications. Let's explore the features and benefits of this product in detail.
Product Overview

Our scaffolding ladders are designed to provide a safe and stable platform for workers to carry out their tasks at elevated heights. The BM224 model is a 3m high scaffolding ladder with a step width of 50cm. It is made of high-quality materials and has a load capacity of 150kg, making it suitable for heavy-duty industrial use.

Application and Usage

These scaffolding step ladders are widely used in construction sites, maintenance work, and various industrial applications. They are an essential tool for workers who need to access elevated areas for tasks such as painting, plastering, and electrical work. The portable design of our ladders makes them convenient to use in different locations.

Durability and Safety

At bythai, we understand the importance of safety in the workplace. That's why our scaffolding ladders are designed to be sturdy and stable, providing a secure platform for workers to work on. The high-load capacity and anti-corrosion surface treatment ensure that the ladder can withstand heavy use and harsh weather conditions, making it a durable and long-lasting investment for your business.

Convenient and Easy-to-use

Our scaffolding ladders are designed with convenience in mind. They are lightweight, easy to assemble and disassemble, and can be transported using containers, making them suitable for any job site. The silver color of our ladders also provides high visibility, promoting safety in the workplace.

Customization Options

At bythai, we understand that every job site has different requirements. That's why we offer customization options for our scaffolding ladders. You can choose the color, size, and step width according to your specific needs. We also offer logo printing services, making our ladders a great branding tool for your business.

Ordering and Delivery

The minimum order quantity for our scaffolding ladders is 1000 pieces. They are packaged in containers for easy transportation and delivered within 10-25 days, depending on the order size. We also offer fast and efficient after-sales services to ensure customer satisfaction.

Conclusion

In conclusion, bythai's BM224 scaffolding ladder is a versatile and essential tool for any construction or maintenance work. With its high-load capacity, durability, and safety features, it is a cost-effective investment for your business. Contact us today to place your order and experience the convenience and efficiency of our scaffolding ladders.
