

Customized Length Steel Staging Plank for Building Construction Requirements

Our Product Introduction

for more products please visit us on bythaiscaffold.com

Basic Information

- Place of Origin: China
- Brand Name: Bythai
- Certification: SGS ISO
- Model Number: BM205
- Minimum Order Quantity: 1000
- Price: 4.5-8.5
- Packaging Details: CONTAINER
- Delivery Time: 10-15
- Payment Terms: L/C, T/T

Product Specification

- Usage: Scaffolding
- Packaging: Container
- Length: Customized
- Surface: Pre-galvanized/hot Dip Galvanized/Spray Plastic
- Material: Steel
- Place Of Shipment: China

Product Description:

Scaffolding Plank: Strong and Durable Steel Staging Plank for Safe and Efficient Building Projects

Scaffolding Plank is a high-quality steel plank designed specifically for use in the construction industry. Made from strong and durable steel, this product is ideal for use in a variety of building projects, providing a safe and efficient platform for workers to perform their tasks.

Scaffolding Plank is a versatile and reliable product that meets the highest standards of quality and safety. It is designed to provide a stable and secure working surface for workers at various heights, making it an essential component in any building project.

This product is manufactured in China, a country known for its high-quality steel products. It is available in a variety of surface finishes, including pre-galvanized, hot dip galvanized, and spray plastic, to meet the specific needs of different building projects.

Key Features

Strong and durable steel material for longevity and safety

Available in various surface finishes for different project requirements

Designed specifically for use in scaffolding, providing a stable working platform at different heights

Easy to install and remove for efficient and time-saving construction

Compatible with other steel staging plank systems such as steel plank ringlock scaffolding

Equipped with steel planks w/hook for enhanced stability and safety

Provides a secure and non-slip surface for workers to perform their tasks

Can withstand heavy loads and extreme weather conditions

Packaged in containers for easy transportation and storage

Usage

Scaffolding Plank is specifically designed for use in scaffolding systems, providing a safe and reliable working platform for workers in construction, maintenance, and repair projects. It is suitable for both indoor and outdoor use, making it a versatile and essential tool in the construction industry.

Why Choose Scaffolding Plank?

When it comes to scaffolding, safety is of utmost importance. That's why you should choose Scaffolding Plank for your building projects. Our product is made from high-quality steel and designed to meet the strictest safety standards. It is also easy to install and remove, saving you time and effort. With its various surface finishes and compatibility with other steel staging plank systems, Scaffolding Plank offers flexibility and convenience for any construction project.

Conclusion

Scaffolding Plank is a top-quality product that meets all the necessary requirements for safe and efficient scaffolding. Made from strong and durable steel, it is ideal for use in various construction projects, providing workers with a stable and secure working platform. With its various surface finishes and compatibility with other steel staging plank systems, Scaffolding Plank offers convenience and versatility for any building project. Choose Scaffolding Plank for your next construction project and ensure the safety and efficiency of your workers.

Technical Parameters	Values
Place of Shipment	China
Material	Steel
Surface	Pre-galvanized/hot Dip Galvanized/Spray Plastic
Packaging	Container
Usage	Scaffolding
Length	Customized
Features	Steel plank with hooks, steel plank for scaffold, galvanized steel planks
