## Product Description

### Product Description:

Our Scaffolding Plank comes in three surface options: Pre-galvanized, Hot Dip Galvanized, and Spray Plastic. These surface treatments ensure that the plank is resistant to rust and corrosion, making it ideal for outdoor use.

Our Scaffolding Plank is designed to provide maximum safety and support to workers. The plank is fitted with hooks on both ends, which can be easily attached to the scaffolding frame. This feature ensures that the plank is firmly secured in place and minimizes the risk of accidents.

Our Scaffolding Plank is available in a container packaging, making it easy to transport and store. This ensures that the plank reaches your construction site in perfect condition.

Our Scaffolding Plank is manufactured in China, ensuring that you get the best quality at an affordable price. Our manufacturing process follows strict quality standards to ensure that the product meets all safety and performance requirements.

Our Scaffolding Plank is perfect for use in various scaffolding applications, including construction sites, building maintenance, and renovation projects. The plank provides a stable and secure platform for workers to perform their tasks safely and efficiently.

If you're looking for a reliable and durable Scaffolding Steel Walking Plank Hook, our Galvanized Steel Plank Catwalk is the perfect choice. Made of high-quality steel material and fitted with hooks on both ends, this plank is designed to provide maximum safety and support to workers.

Choose our Steel Plank for your construction needs and experience the peace of mind that comes with a safe and reliable platform for your workers.

**Features:**

BS1139 steel plank

Steel plank with hooks

Steel plank with hook

### Technical Parameters:

| Attribute         | Value   |
|-------------------|---|
| Place of shipment | China   |
| Surface           | Pre-galvanized/hot Dip Galvanized/Spray Plastic |
| Packaging         | Container                                       |
| Material          | Steel   |
| Usage             | Scaffolding                                     |
| Length            | Customized                                      |

### Applications:

With a minimum order quantity of 1000, the Bythai BT205 steel plank for scaffold is a cost-effective option for construction companies, warehouses, and other industrial settings. Its perforated design allows for easy drainage and prevents slipping, ensuring maximum safety for workers.

The Bythai BT205 steel staging plank is ideal for a variety of usage occasions and scenarios, including:

**Building and construction sites**

**Bridge construction and maintenance**

**Power plant maintenance and repair**

**Oil refinery maintenance and repair**

**Warehouse inventory management**

Each plank is packaged in bundles and shipped from China via container. The delivery time is 10-15 days, and payment terms are container or shipping, making the Bythai BT205 steel staging plank a convenient and accessible option for businesses of all sizes. Available at a price range of 15.5-85.5, the Bythai BT205 perforated steel plank for sale is a reliable and affordable choice for any scaffolding needs.

## Customization:

You can customize the length of your steel planks according to your requirements. The minimum order quantity is 1000 pieces, and the price ranges from 15.5 to 85.5 per piece. Your order will be packaged in bundles and shipped in containers from our place of origin in China. The delivery time is 10-15 days, and we accept container and shipping payment terms. Choose the perfect customization for your steel scaffolding plank now and experience the quality of Bythai BT205.
