Durable Ringlock System Scaffolding For Secure And Durable Scaffold Support

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Bythai
- Certification: SGS
- Model Number: BS1703
- Delivery Time: 10-15 working Days
- Payment Terms: T/T

Product Specification

- Features: High Strength, Durable
- Flexibility: Easy To Adjust And Reposition
- Vertical Load Capacity: ≥45KN
- Ledger Length: 0.5m-3.07m
- Horizontal Adjustment: ≤±3°
- Ring Thickness: 10mm
- Joints: Double-locking
- Ledger Spacing: 0.5m
- Advantages: High Strength, Easy Assembly, Versatile,
- Material: Q235/Q345 Steel
- Materials: Q195, Q235, Q355B
- Warranty: 2 Years

Product Description

Features

Secure and Durable Support: Factory Direct Galvanized Ringlock Ledger
Elevate your construction projects with the reliable strength and corrosion resistance of our factory direct galvanized ringlock ledger!

Sourced from a reputable manufacturer and offered at competitive prices, this essential component of the ringlock scaffolding system provides a secure and stable horizontal platform for workers and materials.
Factory Direct Pricing: Enjoy significant savings by purchasing directly from a trusted manufacturer.
Hot-Dip Galvanized Finish: The zinc coating offers superior corrosion resistance, extending the lifespan of the ledger and minimizing maintenance needs.
Seamless Ringlock Integration: Designed for a perfect fit with ringlock standards and diagonals, ensuring a secure and stable connection within the scaffolding system.
High-Strength Steel Construction: Experience exceptional durability and weight capacity to support demanding construction loads.
Simplified Assembly: The user-friendly design allows for quick and easy installation and dismantling of the scaffolding system, saving valuable project time.
Multiple Lengths:1-3M lengths to cater to diverse project needs.
Enhanced Durability: Hot-dip galvanization protects the ledger from rust and corrosion, ensuring long-lasting performance in harsh construction environments.
Unmatched Safety: The secure connection with ringlock standards and diagonals creates a stable and reliable work platform for workers.
Increased Efficiency: The user-friendly design simplifies assembly and disassembly, streamlining the scaffolding setup process.
Reduced Maintenance Costs: The hot-dip galvanized finish minimizes maintenance needs and protects against corrosion.
Cost-Effective Solution: Factory direct pricing allows you to stretch your project budget further.
Invest in our factory direct galvanized ringlock ledger and experience the difference in strength, durability, and affordability for your building projects!

Specification	Thickness(mm)	Length(mm)	surface	Weight(kg)

Why Choose Us

When choosing Bythai Scaffolding for your scaffolding needs, you benefit from over a decade of industry experience and specialized knowledge that streamlines communication and ensures efficient project execution. We offer customizable solutions tailored to meet your exact specifications, backed by our strict adherence to international, national, and local safety standards. Our commitment to safety is unwavering, guaranteeing compliance with all regulations for every scaffolding operation. Enjoy the advantage of factory-direct pricing with no additional service fees, providing cost-effective solutions without compromising on quality. Our dedication to superior customer service means you receive attentive support throughout your project, ensuring a seamless experience from start to finish.

FAQ

General Questions

Q: What types of scaffolding systems do you manufacture?
A: We produce a variety of steel & Aluminum scaffolding systems, including scaffolding tubes and couplers, Ringlock, Frame, and Props Systems. Scaffolding accessories like planks, ring-lock standard, Ledger, Diagonal, and Screw are also supplied.

Q: Where are your products manufactured?
A: All our products are manufactured in our factory located in China.

Q: Do you offer custom scaffolding solutions?
A: Yes, we provide customized scaffolding solutions to meet specific project requirements.

Q: Why should we buy from you not from other suppliers?
A: We have a group of staff and a technical team with rich scaffolding experience, we have many years of engineering site visits and exchange experience, professionally to provide customers with all kinds of scaffolding consultation and program recommendations.

Q: What successful scaffolding project experience does your company have?
A: We have been involved in many successful projects over the past three years including multi-story buildings, bridge projects, and more. Please refer to our project case page for specific cases.

Product Information

Q: What materials are your scaffolding products made of?
A: Our scaffolding products are made from high-quality materials such as aluminum and steel.

Q: Are your scaffolding systems compliant with international standards?
A: Yes, our scaffolding systems comply with international standards such as BS1139, EN39, and STK400, STK500.

Q: What is the load capacity of your scaffolding systems?
A: The load capacity varies by system, we need to set it up for testing. Please contact our sales team for more details.

Ordering & Pricing

Q: How can I place an order?
A: Orders can be placed by contacting our sales team via email or phone. You can also request a quote through our website.

Q: Do you offer factory prices?
A: Yes, we offer competitive factory prices to ensure cost-effectiveness for our clients.

Q: Is there a minimum order quantity?
A: The minimum order quantity depends on the specific product. Please contact our sales team for more details.

Q: Do you provide discounts for bulk orders?
A: Yes, we offer discounts for bulk orders. Please contact us for a detailed quotation.

Shipping & Delivery

Q: Do you ship internationally?
A: Yes, we ship our products worldwide, with a focus on South America, North America, South Asia, and the Middle East.

Q: How long does it take to deliver an order?
A: Delivery times vary depending on the destination and order size. Generally, it takes between 2-6 weeks.

Q: What shipping methods do you use?
A: We use various shipping methods including sea freight, air freight, train, and express courier services.

After-Sales Support

Q: What kind of after-sales support do you offer?
A: We offer comprehensive after-sales support including installation guidance, maintenance advice, and technical support.

Q: Do you provide warranties on your products?
A: Yes, we offer warranties on our products. The warranty period varies by product.

Q: How can I get technical support?
A: Technical support can be accessed by contacting our support team via email or phone.

Quality Assurance

Q: How do you ensure the quality of your products?
A: We have strict quality control measures in place, including rigorous testing and inspections at various stages of production.

Q: Can I visit your factory for an inspection?
A: Yes, we welcome factory visits. Please contact us to schedule an appointment.

Q: Do you have any certifications for your products?
A: Yes, our products are certified to meet various international standards.

Safety & Regulations

Q: Are your scaffolding systems safe to use?
A: Yes, our scaffolding systems are designed with safety as a top priority and meet all relevant safety regulations.

Q: What safety precautions should be taken when using your scaffolding?
A: Safety precautions include proper assembly, regular inspections, and adherence to safety guidelines and regulations.
